How it works

Strategic Planning

First we facilitate a strategic planning session to align your strategic objectives, quality assurance & improvement program and create a support plan that meets your needs.

Setup

Next we ensure all the quality assurance and support processes, documentation, reports, dashboards, job aids, and templates are ready and meet the QAIP standards defined in the IPPF.

Maintain and Monitor throughout the year

Weekly we monitor your metrics and notify you of anything out of line with your standards.

Monthly you receive quality reports on the things that matter to you. You always know what you need to act on and why.

What's included?

Everything to keep your department running efficiently

Annual Strategic Planning

- Best practice implementation
- Benchmarking

Quality Assurance & Improvement (QAIP)

- Alignment to standards (2024 changes)
- Continuous QA monitoring and review
- Issue management
- Charter, independence & ethic confirmation
- Stakeholder survey
- Documentation, policies & procedures

Learning & Development

- Templates
- Job aids
- Onboarding

Talent Management

- Career development model
- Skills assessment templates and reporting
- CPE Tracking

Technology Support

- System maintenance & upgrades
- User adoption & training
- QAIP / Methodology alignment
- Business continuity management
- 3rd party management

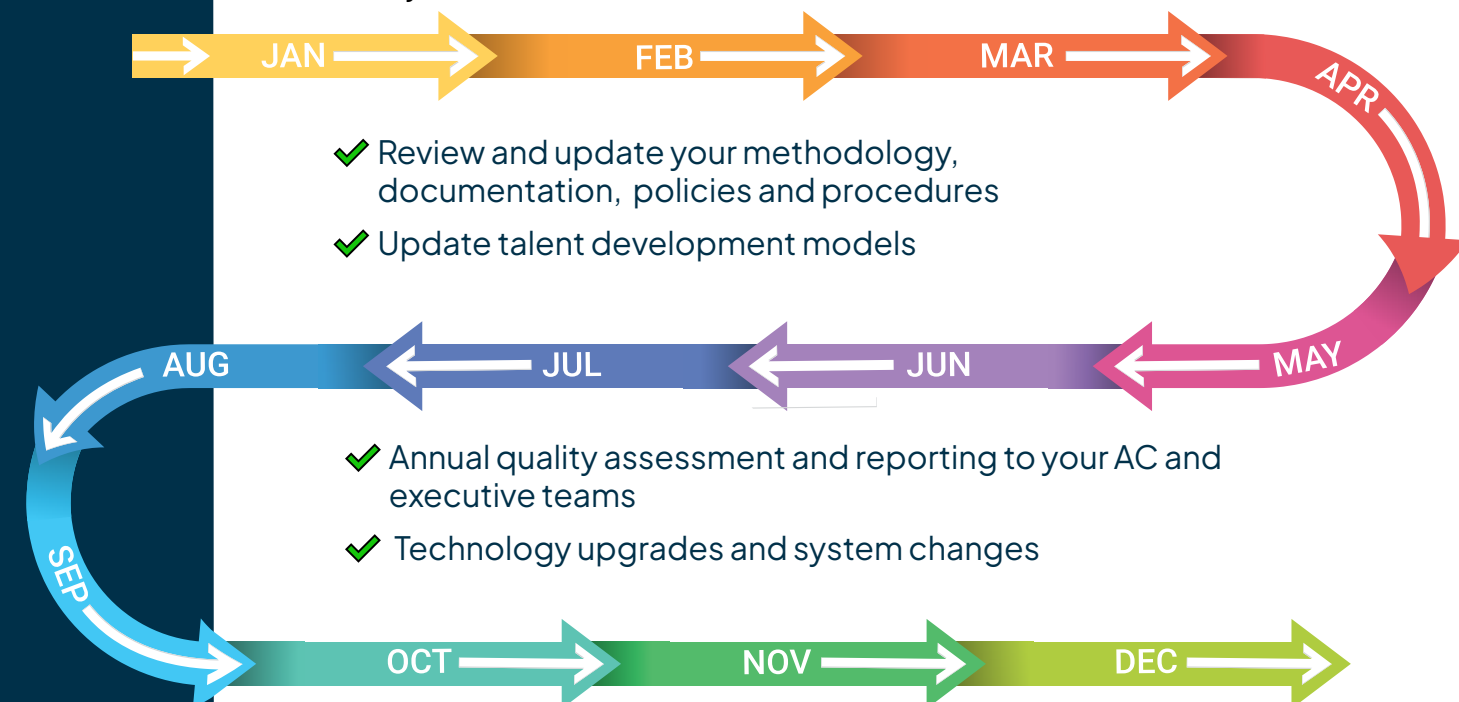

Reporting & Dashboards

- Annual QA Report
- Dashboards & Metrics
- Year-end reporting

And More!

Typical annual support cycle

Throughout the year, we make sure your department is always current with your quality assurance, auditing best practices, technology systems, policies, procedures and delivering on your objectives.

- ✓ Review and update your methodology, documentation, policies and procedures
- ✓ Update talent development models

- ✓ Annual quality assessment and reporting to your AC and executive teams
- ✓ Technology upgrades and system changes

- ✓ Strategic planning and goal setting for next year to align support services and implement auditing best practices
- ✓ Work with you to make sure you have all the CPE you need for the year
- ✓ Year-end report to show your AC and executive management the great things you did throughout the year

Elevate

Your Audit Practice

WE are YOUR strategic advantage

- QAIP embedded into your process, monitored and maintained
- Consistent dashboards, metrics, reporting with monitoring and alerts
- Continuous improvement and best practice implementation
- Alignment to IPPF standards and changes as they are released
- Technology implementation, alignment, and user adoption as tools and systems change
- Talent development tools (skills assessments, CPE tracking, etc.)
- Experienced Internal Audit Professional Practice Support at a fraction of the cost of an FTE

Send a message to your stakeholders that you take quality and efficiency serious with Quality Assurance & Support Subscription Services from Audit Practice Support.
